

Dario Guariglia

Swedish software developer and SaaS creator who builds with AI.

Born 2007 Sollentuna, Stockholm www.darioguariglia.com github.com/mrrobotbuilder
darioleoguariglia@gmail.com

PROJECTS

Nami's World Map · Live · www.namisworldmap.com

Every One Piece island on one clickable map: what happened there, and who was involved.

Next.js 16, TypeScript, Tailwind v4, d3-zoom, static JSON, Vercel

StockSim · Live · stocksim-kappa.vercel.app

Learn to invest with real stock data and no real money.

Next.js, Prisma, Postgres, Yahoo Finance data, Recharts

Publitz · In progress · publitz.vercel.app

Photograph a garment, get a finished listing for Vinted, Plick, Tradera and Blocket.

Next.js, Clerk, Stripe, Postgres, Anthropic SDK, browser extension

Pulse · In progress · github.com/mrrobotbuilder/Pulse

A personal health and life dashboard where every tile feeds one goal.

Next.js, Supabase, Anthropic SDK, an MCP server, three.js

Stega · In progress

Plan a walk on the map and know the step count before you set off.

Next.js, TypeScript, Leaflet, Nominatim through API routes

TOOLS AND HOW I WORK

- I build with Claude Code, Codex and Grok Bot. The AI does the typing; I decide what gets built, what ships and what gets cut.
- Two products live, the first since July 2026, both built this way. Three more in progress.
- Publitz's product decisions come from research with about 35 real Swedish second-hand sellers.
- A repo goes public when its project is finished. This CV is generated from darioguariglia.com by a script.

EXPERIENCE

Oriad · Since summer 2026 — Building my own products full time. Not a registered company yet.

Åhléns City, Stockholm · Summer 2026 — Menswear.

EDUCATION

Rudbecksgymnasiet, Stockholm · 2023–2026

Economics programme, graduated 2026. Best-thesis diploma for a gymnasiearbete on the future of AI.

LANGUAGES

Swedish, Spanish and English at C2. German at B1. Italian at A2.
